

Cordless Phone System

Universal Bluetooth Phone System for Smartphones

🚯 Bluetooth

Your mobile phone's new home.

Eliminate your landline and stay connected wherever you roam in your home, with ION's Cordless Phone System.

You'll never have to say "Where's my phone?" again. ION's Cordless Phone System is the world's first home phone system built specifically for mobile phones. It comes with a charging base for your mobile phone and three handsets that you can place anywhere in your home. Using crystal-clear DECT 6.0 technology, you can answer and dial out on your mobile phone with any of the handsets.

Features

Eliminates the need for landlines

Turns a smartphone into a multi-handset cordless phone system

Base station connects to your phone via Bluetooth

Base station charges your phone

Handsets use DECT 6.0 for great clarity and distance

Base cradle charges your phone
